INDEX TO VOLUME 50, 1999

AUTHOR AND TITLE INDEX

(Excluding *Book Selection* and *Viewpoints*)
* = Case-Oriented Paper

Abdel-Malek, L., Wolf, C., Johnson, F. and Spencer, T. III.:
OR Practice: survey results and reflections of practising INFORMS members, 994

Aboud, J.:
(*see* Weintraub, A.)

Ackermann, F., Walls, L., van der Meer, R. and Borman, M.:
Taking a strategic view of BPR to develop a multi-disciplinary framework, 195

Adenso-Diaz, B.:
(*see* Lozano, S.)

Adlakha, V. G.:
An alternate linear algorithm for the minimum flow problem, 177

*Al-Amin, Md., Forbes, M. A. and Noble, D.H.:
Production of locomotive rosters for a multi-class single-locomotive problem, 1004

Alidaee, B. and Womer, N. K.:
Scheduling with time dependent processing times: Review and Extensions, 711

Alidaee, B.:
(*see* Hwang, C-P.)

Aloysius, J. A. and Rosenthal, E. C.:
The selection of joint projects by a consortium: Cost sharing mechanisms, 1244

*Alvarez-Valdes, R., Crespo, E. and Tamarit, J. M.:
Labour scheduling at an airport refuelling installation, 211

Ansell, P. S., Glazebrook, K. D., Mitrani, I. and Niño-Mora, J.:
A semidefinite programming approach to the optimal control of a single server queueing system with imposed second moment constraints, 765

Appa, G. and Yue, M.:
On setting scale efficient targets in DEA, 60

Archer, N.:
(*see* Ghasemzadeh, F.)

*Archibald, T. W., Buchanan, C. S., McKinnon, K. I. M. and Thomas, L. C.:
Nested Benders decomposition and dynamic programming for reservoir optimisation, 468

*Arer, M. M. and Ozdemirel, N. E.:
Simulation of capacity expansion and sequencing alternatives for a sheet metal producer, 596

*Banasik, J., Crook, J. N. and Thomas, L. C.:
Not if but when will borrowers default, 1185

Bander, J. L. and White, C. C. III.:
Markov decision processes with noise-corrupted and delayed state observations, 660

Barbarosolu, G.:
(*see* Özdamar, L.)

Basnet C., Foulds, L. R. and Wilson, J. M.:
Heuristics for vehicle routing on tree-like networks, 627

Baykasoglu, A., Owen, S. and Gindy, N.:
Solution of goal programming models using a basic taboo search algorithm, 960

Belobaba, P. P.:
(*see* Botimer, T. C.)

Birgil, S.:
(*see* Hurrion, R. D.)

*Bolat, A.:
Assigning arriving flights at an airport to the available gates, 23

Borman, M.:
(*see* Ackermann, F.)

Boston, J. and Pointon, J.:
Valuation under technological change, 255

*Botimer, T. C. and Belobaba, P. P.:
Airline pricing and fare product differentiation: A new theoretical framework, 1085

Bouyssou, D.:
Using DEA as a tool for MCDM: some remarks, 974

Boylan, J. E.:
(*see* Johnston, F. R. — 2 papers)

Buchanan, C. S.:
(*see* Archibald, T. W.)

Bunn, D. W.:
(*see* Larsen, E. R–2 papers)

Burns, R. and Narasimhan, R.:
Multiple shift scheduling of workforce on four-day workweeks, 979

*Buzacott, J. A.:
Dynamic inventory targets revisited, 697

Buzby, B. R., Campbell, G. M. and Webb, I.:
Cyclical schedules for one-warehouse, multi-retailer systems with dynamic demands, 850

Calloway, J. A.:
(*see* Mesak, H. I.)

VIEWPOINTS INDEX

Bradford, J. W. and Sugrue, P. K.:
A reply to Lau and Lau, 189

Flood, R.:
Give it a go Georgiou!, 99

Georgiou, I.: Furthering the operational research philosophical agenda, 97
Georgiou, I.:
A response to Flood, Taket and Valverde, 101

Lau, A. H-L. (see Lau, H-S)
Lau, H-S. and Lau A, H-L.:
A note on Bradford–Sugrue's 'A Bayesian approach to the two-period style-goods inventory problem with single replenishment and heterogeneous poisson demands', 187

Midgely, G.:
Ethical Dilemmas: A reply to Richard Ormerod, 546
Miser, H. J.:
Interdisciplinarity and how over the years the meaning of the term operational research has changed, 982
Miser, H. J.:
The kinds of papers that will contribute to OR's foundations and a well-rounded view of the conditions and craft of OR practice, 874

Ormerod, R.:
Ethical Dilemmas, 546

Sugrue, P. K.:
(see Bradford, J. W.)

Taket, A.:
Let a thousand flowers bloom!—yes indeed, but notice also that they have already been blooming for quite a while, 98
Tomlinson, RC:
An appreciation of Hugh J Miser, 1183

Valverde, L. J.:
Philosophical consolations for OR, 100
Volgenant, A.:
Comments on 'Fast heuristics for protection networks for dynamic routing' (Ouveysi and Wirth)—JORS 50: pp 262–267, 283

Williams, T.:
More on case study papers, 95

OBITUARY INDEX

Tomlinson, RC:
An appreciation of Hugh J Miser, 1183

SUBJECT INDEX

(This index includes all *papers*)

Accelerated life models 1185
Achievable region 765
Advertising 837
Aggregate production planning 857
Agriculture 931
Air quality 526
Air transport 1098
Airline pricing 1085
Allocation 531
Analytic hierarchy process 867, 916, 1191
Ant colony optimisation 167
Ant systems 167
Assignment 23, 1004
Attrition 733

Backhauling 1034
Balk 275
Banking 903
Battle 733
Benchmarks 903
Benders decomposition 468
Branch and bound 23, 517, 1071
Breakdowns 275
Breakpoint 733
Business failure prediction 1138
Business modelling 302
Business process re-engineering 195

Capacitated lot sizing 857
Capacity planning 52, 596, 1205
Capital budgeting 255, 645 1244
Case study 877
Cell design 509
Cellular manufacturing 509
Change 354
Civil government 985
Civil industry 985
Clinics 109
Clustering 1034
Combat modelling 244
Combinations of forecasts 1199
Communication 177, 1168
Comparison 1149
Competing risks 1185
Competition 337
Compound renewal 75
Computational analysis 777
Constraint programming 581
Constraint satisfaction 617
Consulting practice 302
Contemporary 994
Contract research organisations 943
Convex efficiency 974
Core business 315
Corporate learning 364
Corporate policy 315
Costing 372
Credit scoring 1185
Crew scheduling 608
Cricket 536
Current trends 440
Cutting planes 157
Cycle stock 789

Data envelopment analysis (DEA) 3, 60, 636, 903, 974
Data mining 85
Decision support systems 70, 195, 617
Defence 372
Delay time concept 1120
Dependent random variables 183
Desirability 1149
Deteriorating items 1176
Deterministic 711
Developing country 892
Development programmes 916
Diet formulation 931
Discrete time 777
Discriminant analysis 1043
Discrimination 1138
Distribution 497, 850
Distribution free lead time 1272
Diversification 315
Dredger dispatching 35
Dual responses 826
Dynamic programming 85, 219, 468, 536, 660, 789, 931
Dynamic resource system 315

Education 12
Efficiency 903, 974
Ejection chains 608
Electre methods 943
Electricity 337, 690
Emergency response 617
Empirical inference 3
Engineering 1120
Environment 497, 526
Exchange ratio 733
Expectation 1149
Experimental design 1018
Expert system 617

Exponential smoothing 1079
Exponentially weighted moving averages 1267

Facility layout 517
Facility location 157
Finance 480, 1256
Finite time horizon 1176
Flexible manufacturing systems 1229
Flight schedules 23
Force ratio 733
Forecasting 697, 1104, 1199, 1267
Forestry 219
Future directions 440
Fuzzy sets 35, 1217

Game theory 669, 837, 1244
Genetic algorithms 810, 857, 867
Gittins index 765
Global optimisation 826
Global search 797
Goal chasing algorithm 704
Goal programming 1158, 1191, 1280
Groups 1104

Health care 345, 1191
Health service 109, 684, 877, 892
Heterogeneous fleet 721
Heuristic optimisation 429
Heuristics 23, 44, 138, 205, 211, 262, 451, 608, 627, 690, 721, 789, 797, 810, 1034, 1054, 1071
History of OR 296, 985
History of system dynamics 440
HIV/AIDS 345
Hospitals 109
Hotels 1104, 1111
Human behaviour 364
Hydro-electric 468

ILOG solver 617
Importance 1149
Information requirements analysis 124
Information resource planning 1191
Information systems 195
Information technology 195
Inhomogeneous 777
Input and output points 517
Insertion 1034
Insolvency 480
Integer programming 581, 745, 850, 1004, 1043, 1205, 1244
Interval objective function 1063
Intervention 877
Inventory control 75, 85, 531, 697, 789, 850, 1176, 1272
Investment 480

JIT 704

Knowledge management 383

Labour scheduling 211
Lagrangean relaxation 268, 810
Lanchester models 244
Lead time demand 1079
Learning 396, 422
Legal 480
Linear programming 480, 526, 931, 1252
Local search 797
Location 268
Location-allocation modelling 892
Lockbox 44
Logico-linguistic models 124
Logistics 1158
LP-based heuristics 157

Machine availability 275
Maintenance 1071, 1120, 1229
Makespan 230
Management education 302, 396
Management of OR groups 563
Managerial learning 345
Manpower planning 979, 1252
Marketing 837
Markov processes 536, 660, 777, 1229
Markov Stochastic Lanchester 733
Mathematical programming 1043
Maximum covering location problem 892
MCDM 974
Meta-heuristics 167, 509
Methodology 12
Microworlds 396
Military 244, 1158
Minimax regret 1063
Minimum flow 177
Mission-orientated analysis 372
Mixed graph 230
Mixed integer programming 497, 857, 1063
Mixed-model assembly line 704
Modal logic 124
Model building 70
Modelling 422
Modelling methodology 636
Monitoring 684
Monte Carlo simulation 636, 826
Moving averages 1199, 1267
Multi-business investment decisions 315
Multi-class queueing system 765
Multi-criteria decision making 35, 916, 943
Multi-objective 949
Multi-stage lot sizing 810
Multicriteria optimization 1158

Multiple objective optimisation 960
Multivariate statistical analysis 1138

Networks and graphs 262, 669, 1168
Neural networks 85, 1018
NIMBUS 949
Non-convex polygon 1054
Nonlinear programming 949
Nonsmooth optimisation 949

Off-line quality control 826
Oil and gas value 383
Oil industry 383
On-line selection rule 645
Open shop scheduling 756
Operational research 994
Optimal scheduling 230
Optimisation 44, 219, 660, 1054, 1168, 1229, 1256
OR education 70, 651
Ordering cost reduction 1272
Organisation 422
Organisational culture 124
Organisational learning 195, 383
Organisational studies 563
Organizational theory 406
Outranking relationships 943
Overbooking 1098

Packing 1054
Partial backlogging 1176
Penalty functions 1280
Performance 684
Performance evaluation 3
Petri nets 1229
Pharmaceutical industry 943
Phase transitions 148
Philosophy of OR 12
Planning 451
Planning *vs* control 3
Plant location 1205
Policy design 429
Portfolio investment 1256
Portfolio management 315
Practice of OR 12, 205, 563, 994
Prediction intervals 1079
Preemptive goal programming 960
Preference disaggregation analysis 1138
Preference modelling 1280
Primary health care 892
Privatisation 337
Problem-management 1149
Procurement 372
Product development 1217
Product differentiation 1085
Production 205, 711, 1120
Production planning 138
Production planning with setups 857
Production sequencing 596
Professional 563
Project management 148, 460, 745
Project scheduling 645, 1217
Project selection 645, 745
Project selection allocation 1244
Proportional hazards models 1185
Public policy 345
Purchasing 916

Quadratic assignment problem 167
Quadratic programming 826, 1256
Qualitative analysis 422
Qualitative modelling 440
Qualitative system dynamics 372
Quality 219, 651
Quantitative analysis 422
Quantitative modelling 440
Queueing 777

Rail transport 1004
Reference direction method 949
Regression 526, 1018
Reliability 1120
Remanufacturing 497
Renege 275
Research and development 255
Reservoir operation 468
Resource-based view 315, 396
Response surface methodology 826
Restricted neighbourhood search 268
Revenue management 1085
Reverse logistics 497
Risk analysis 70
RODOS 617
Rostering 1004
Rotating schedules 1011
Routing 1034
Run-cutting 608

Safety stock 1079
Savings approach 627
Scale efficient targets 60
Scenarios 354
Scheduling/sequencing 148, 205, 704, 711, 850, 979, 1071
Semidefinite program 765
Service measure 75
Sheet metal production 596
Shift work 1011
Simulated annealing 44, 704, 810
Simulation 109, 183, 302, 315, 396, 451, 596, 651, 877, 1252

Simulation metamodels 1018
Size 903
Soft systems 877
Soft systems methodology 124, 1149
Software tools 440
Sports 536
Spreadsheets 70, 1256
Statistical process control 651
Statistical science 195
Statistics 3, 651
Stochastic dynamic programming 645
Stochastic optimisation 468, 765
Stochastic processes 255, 1229
Strategic modelling 364
Strategy 195, 354, 669
Strategy dynamics 396
Sugar cane 451
Surgical operations 684
Survey 994
Synthesising ratio 867
System dynamics 296, 302, 315, 337, 345, 354, 364, 383, 396, 406, 422, 429, 460, 697
Systems 12
Systems analysis 1111
Systems thinking 383

Tabu search 211, 509, 608, 960
Target setting 903
Telecommunications 262, 531
Theory development 406
Theory testing 406
Time dependent processing times 711
Time series 1199, 1267
Time windows 721
Time-varying demand 1176
Transportation 177, 451
Transportation time 756
Travelling salesman 797
Tree network 627
Two machines 756

Uncertainty 230

Value based management 383
Vehicle dispatching 690
Vehicle routing 627, 690, 721
Vendor rating 916
Visioning 354

Warehousing 52
Warfare models 1158

Yield management 1085, 1098, 1104, 1111

BOOK SELECTION INDEX

Aarts, E. and Lenstra, J. K.:
Local Search in Combinatorial Optimisation, 191

Barros, A. I.:
Discrete and Fractional Programming Techniques for Location Models, 775
Beroggi, G. E. G. and Wallace, W. A.:
Operational Risk Management: The Integration of Decision, Communications and Multimedia Technologies, 776
Bomze, I. M., Csendes, T., Horst, R and Pardalos, P. M.:
Developments in Global Optimization, 286
Bramel, J. and Simchi-Levi, D.:
The Logic of Logistics: Theory, Algorithms and Applications for Logistics Management, 193
Brucker, P.:
Scheduling Algorithms, Second Revised and Enlarged Edition, 774

Cela, C.:
The Quadratic Assignment Problem—Theory and Algorithms, 558
Checkland, P. and Holwell, S.:
Information, Systems and Information Systems — Making sense of the field, 554
Crainic, T. G. and Laporte, G. (Ed):
Fleet management and logistics, 1284
Csendes, T.:
(*see* Bomze, I. M.)

Dudewicz E. J.:
Modern Digital Simulation Methodology III, 286
Dyson, R. G. and O'Brien, F. A.:
Strategic Development: Methods and Models, 192

Girón, F. J.:
Applied decision Analysis, 1286
Glover, F. and Laguna, M.:
Tabu Search, 106
Grabowski, M. R. and Wallace, W. A. (Eds.):
Advances in Expert Systems for Managemet, Volume 2: Evaluation and Value in Knowledge-based Systems, 774

Hajdu, M.:
Network Scheduling for Construction Project Management, 557
Holwell, S.:
(*see* Checkland, P.)
Horst, R.:
(*see* Bomze, I. M.)

IAOR: International abstracts in operations research CD-ROM archive of abstracts, 1285

Jungnickel, D.:
Graphs, networks and algorithms, 1286

Kao, E. P. C.:
An Introduction to Stochastic Processes, 284
Ketchen, D.:
Advances in Applied Business Strategy, Volume 5—Turnaround Research, 104

Laguna, M.:
(*see* Glover, F.)
Laporte, G.:
(*see* Crainic, T. G.)
Lenstra, J. K.:
(*see* Aarts, E.)
Levner E.:
Intelligent Scheduling of Robots and Flexible Manufacturing Systems, 285

Macrakis, M. S.:
Scarcity's Ways: The Origins of Capital—A Critical Essay on Thermodynamics, Statistical Mechanics and Economics, 557

O'Brien, F. A.:
(*see* Dyson, R. G.)
Olling, G.:
(*see* Plonka F.)
